

OIL & GAS

A CENTURY OF SOLUTIONS

There's one thing we don't do at T. Baker Smith — shy away from a challenge. A century of experience has taught us that oil and gas exploration and production present unique challenges every step of the way. Whether you're working on land, nearshore or offshore, you've got to quickly and accurately identify prospects, as well as move your product efficiently throughout your asset's life cycle. That's why we tailor our approach to each client, working across locations and practice areas. Quite simply, it's an approach that gets things done safely. Year in and year out, we have helped countless oil and gas companies with well locations, flowlines and facilities from the Rio Grande, to the Piney Woods of North Louisiana, to the deep blue waters of the Gulf of Mexico.

EXPLORATION

Planning	Leasing/Land Rights	Drilling	Completion
Feasibility Reviews Environmental Permitting Hazards Field-wide Maps	Land Ownership Base Maps Lease Nomination Plats	Access Route, Drill Site and Well Staking As-drilled Surveys Permitting	Environmental Compliance Environmental Surveys Topographic / Hazard Surveying

PRODUCTION

Planning	Product Transportation	Facilities Operations/ Maintenance Management	Decommissioning/ Abandonment
Compliance Audits Due Diligence of Existing Facilities	Flow Line Route Analysis Permitting Surveying	3D Models Air Permitting and Modeling As-built Surveys Civil/Structural Engineering Commingling Permits	Environmental Compliance GIS/Mapping Laser Scanning Process Flow Diagrams Environmental Compliance Permitting Surveying
